Discover More about the NS0-175 Certification

Are you interested in passing the NetApp NS0-175 exam? First discover, who benefits from the NS0-175 certification. The NS0-175 is suitable for a candidate if he wants to learn about Converged Infrastructure. Passing the NS0-175 exam earns you the Cisco and NetApp FlexPod Design title.

While preparing for the NS0-175 exam, many candidates struggle to get the necessary materials. But do not worry; your struggling days are over. The NS0-175 PDF contains some of the most valuable preparation tips and the details and instant access to useful [NS0-175 study materials just at one click](#).

NetApp NS0-175 FlexPod Design Certification

Details:

Exam Name	Cisco and NetApp FlexPod Design
Exam Number	NS0-175 FlexPod
Exam Price	\$150 USD
Duration	90 minutes
Number of Questions	60
Passing Score	66%
Recommended Training	FlexPod Fundamentals
Exam Registration	PEARSON VUE
Sample Questions	NetApp NS0-175 Sample Questions
Practice Exam	Cisco and NetApp FlexPod Design Practice Test

NS0-175 Syllabus:

Section	Objectives
Flexpod Design	<ul style="list-style-type: none"> - Describe FlexPod components based upon customer workloads - Describe how to size a solution based on customer requirements in accordance with FlexPod best practices - Describe the support options for FlexPod
Networking	<ul style="list-style-type: none"> - Describe Cisco networking components used within FlexPod designs - Demonstrate knowledge of FlexPod networking configurations

Section	Objectives
Security	<ul style="list-style-type: none"> - Describe access control methods for FlexPod solutions - Describe the considerations in building a secure multitenancy design
Tools	<ul style="list-style-type: none"> - Describe resources for determining supported FlexPod components - Demonstrate knowledge of using tools for managing FlexPod - Demonstrate knowledge of troubleshooting methodologies for FlexPod solutions

Broaden Your Knowledge with NetApp NS0-175 Sample Questions:

Question: 1

You have multiple clients that want to use FC. You want to ensure that data is kept separate across a FlexPod deployment.

In this scenario, which two constructs would you use to accomplish this task?

(Choose two.)

- a) VSANs
- b) FLOGI
- c) VLANs
- d) Storage VMs

Answer: a, d

Question: 2

A customer wants to monitor and analyze workloads for all of their NetApp ONTAP clusters including the storage system from their FlexPod environment.

In this scenario, which two tools would satisfy this requirement?

(Choose two.)

- a) Cisco Data Center Network Manager
- b) NetApp ONTAP System Manager
- c) NetApp Active IQ Unified Manager
- d) NetApp Active IQ Digital Advisor

Answer: c, d

Question: 3

What are three requirements to receive support through Cisco Solution Support?

(Choose three.)

- a) Valid production-level support agreements for all non-Cisco products within the FlexPod environment.
- b) All Cisco and NetApp products within the FlexPod environment must be covered by Cisco Solution Support.
- c) All Cisco products within the FlexPod environment must be covered by Cisco Solution Support.
- d) A fully operational FlexPod environment with major functions in operation.
- e) Only Cisco B-Series and C-Series servers within the FlexPod environment must be covered by Cisco Solution Support

Answer: a, c, d

Question: 4

An administrator is designing a FlexPod backup solution that includes replication to a remote site that includes the capability to restore to a prior point in time.

In this scenario, which two technologies are required to accomplish this task?

(Choose two.)

- a) NetApp SyncMirror
- b) NetApp SnapMirror
- c) NetApp SnapRestore
- d) NetApp FlexClone

Answer: b, c

Question: 5

You are asked to configure your company's new Cisco MDS switch so that the engineering department's FC storage traffic is logically isolated from the marketing department's traffic.

In this scenario, what will accomplish this task?

- a) VSAN
- b) VLAN
- c) VPN
- d) VXLAN

Answer: a

Question: 6

How many cluster interconnect switch(es) are required for a 4-node NetApp cluster?

- a) 1
- b) 2
- c) 4
- d) 6

Answer: b

Question: 7

Which two types of Cisco UCS servers are available to be used with a FlexPod Express deployment?

(Choose two.)

- a) Cisco UCS C-Series
- b) Cisco UCS B-Series
- c) Cisco UCS E-Series
- d) Cisco UCS S-Series

Answer: a, b

Question: 8

In a FlexPod design, when can NetApp storage be directly connected to a Cisco UCS server?

- a) Never
- b) Always
- c) Only in a FlexPod Select design
- d) Only in a FlexPod Express design
- e) Only in a FlexPod DataCenter design

Answer: c

Question: 9

When configuring a volume to contain a LUN, which administrative tool automatically applies NetApp recommendations?

- a) Data ONTAP command-line interface
- b) Microsoft SystemCenter
- c) OnCommand System Manager
- d) VMware vSphere

Answer: c

Question: 10

The FlexPod Data Center with VMware vSphere 5.1 solution utilizes vSphere High Availability (HA). What is a benefit of the vSphere HA feature?

- a) Allocate and balance computing capacity dynamically
- b) Automated restart of virtual machines on other available servers in the case of primary server failure
- c) Continuous availability for applications in the event of server failures by creating a live shadow instance of a virtual machine that is always up to date with the primary virtual machine.
- d) Ensuring zero downtime for all applications

Answer: b

Avail the Study Guide to Pass NetApp NS0-175 FlexPod Design Exam:

- Find out about the NS0-175 syllabus topics. Visiting the official site offers an idea about the exam structure and other important study resources. Going through the syllabus topics help to plan the exam in an organized manner.
- Once you are done exploring the [NS0-175 syllabus](#), it is time to plan for studying and covering the syllabus topics from the core. Chalk out the best plan for yourself to cover each part of the syllabus in a hassle-free manner.
- A study schedule helps you to stay calm throughout your exam preparation. It should contain your materials and thoughts like study hours, number of topics for daily studying mentioned on it. The best bet to clear the exam is to follow your schedule rigorously.
- The candidate should not miss out on the scope to learn from the NS0-175 training. Joining the NetApp provided training for NS0-175 exam helps a candidate to strengthen his practical knowledge base from the certification.
- Learning about the probable questions and gaining knowledge regarding the exam structure helps a lot. Go through the [NS0-175 sample questions](#) and boost your knowledge
- Make yourself a pro through online practicing the syllabus topics. NS0-175 practice tests would guide you on your strengths and weaknesses regarding the syllabus topics. Through rigorous practicing, you can improve the weaker sections too. Learn well about time management during exam and become confident gradually with practice tests.

Career Benefits:

Passing the NS0-175 exam, helps a candidate to prosper highly in his career. Having the certification on the resume adds to the candidate's benefit and helps to get the best opportunities.

Here Is the Trusted Practice Test for the NS0-175 Certification

NWExam.com is here with all the necessary details regarding the NS0-175 exam. We provide authentic practice tests for the NS0-175 exam. What do you gain from these practice tests? You get to experience the real exam-like questions made by industry experts and get a scope to improve your performance in the actual exam. Rely on NWExam.com for rigorous, unlimited two-month attempts on the [NS0-175 practice tests](#), and gradually build your confidence. Rigorous practice made many aspirants successful and made their journey easy towards grabbing the Cisco and NetApp FlexPod Design.
