Discover More about the 1Z0-1093-22 Certification

Are you interested in passing the Oracle 1Z0-1093-22 exam? First discover, who benefits from the 1Z0-1093-22 certification. The 1Z0-1093-22 is suitable for a candidate if he wants to learn about Oracle Database Cloud Service. Passing the 1Z0-1093-22 exam earns you the Oracle Cloud Database Services 2022 Certified Professional title.

While preparing for the 1Z0-1093-22 exam, many candidates struggle to get the necessary materials. But do not worry; your struggling days are over. The 1Z0-1093-22 PDF contains some of the most valuable preparation tips and the details and instant access to useful 1Z0-1093-22 study materials just at one [click](#).

Oracle 1Z0-1093-22 Cloud Database Services Professional Certification Details:

Exam Name	Oracle Cloud Database Services 2022 Professional
Exam Code	1Z0-1093-22
Exam Price	USD \$245 (Pricing may vary by country or by localized currency)
Duration	90 minutes
Number of Questions	55
Passing Score	68%
Format	Multiple Choice Questions (MCQ)
Recommended Training	Oracle Cloud Database Services 2022 Certified Professional Oracle Database Cloud Administrator 2022 Certified Associate Oracle Database Cloud Administrator 2022 Certified Professional Oracle Cloud Infrastructure Learning Subscription
Schedule Exam	Pearson VUE
Sample Questions	Oracle Cloud Database Services 2022 Certified Professional (OCP)
Recommended Practice	1Z0-1093-22 Online Practice Exam

1Z0-1093-22 Syllabus:

Oracle Cloud Platform for Database in the Cloud	<ul style="list-style-type: none"> - Describe Oracle Cloud Platform for Database in the Cloud - Describe Oracle Cloud Infrastructure Strategy (OCI)
DB Systems BM/VM	<ul style="list-style-type: none"> - Discuss Database Cloud Services (Overview) - Provision Database Cloud Service on a Virtual Machine DB System - Manage Database Cloud Service on a Virtual Machine DB System - Manage the Database Lifecycle for Database Cloud Services on a Virtual Machine DB System - Utilize Database Cloud Service Management Interfaces
Exadata Database Service	<ul style="list-style-type: none"> - Explain the Exadata Database Service - Provision Exadata - Manage Exadata Infrastructure and VM Clusters - Manage the Exadata Database Lifecycle - Utilize Exadata Cloud Management tools
MySQL Database Service and HeatWave Technical Overview	<ul style="list-style-type: none"> - Describe the MySQL Database Service - Manage MySQL Database - Provision and connect to MySQL Database - Monitor MySQL Database - Set up Backup for MySQL Database Service - Describe performance considerations for the MySQL Database Service - Create, manage and use HeatWave
NoSQL Database Cloud Service	<ul style="list-style-type: none"> - Explain connecting to the NoSQL Database Cloud service - Explain table security management - Explain table rate limiting - Describe NoSQL data models - Explain provisioned throughput for NoSQL Database Cloud Service - Describe NoSQL language SDKs
Oracle Cloud Infrastructure Database Management Service	<ul style="list-style-type: none"> - Describe the Oracle Cloud Infrastructure Database Management Service - Install and configure Management Agent - Register External Databases & enable and use Database Management

- | | |

Broaden Your Knowledge with Oracle 1Z0-1093-22 Sample Questions:

Question: 1

The /u02 directory containing Oracle Homes (OH) is 80% utilized and you need to free up space in it. you own two Oracle Homes (OH193_A and OH193_B), each with a test database (193A and 193B respectively).

You decide to consolidate both databases into a single Oracle Home (OH193. |_A) to free up space. Which TWO actions must you perform?

(Choose all correct answers)

- a) Copy the sqnet.ora file from OH193_B to OH193_A.
- b) use the Move Database option from the console.
- c) Schedule a downtime window with the Test teams who use the 193B database.
- d) Create a new container under OH193B and migrate the pluggable databases (PDBs) from 193B to 193A.

Answer: b, c

Question: 2

How many DB systems must you provision before you can enable Oracle Data Guard for a virtual machine DB system database?

- a) Three, first for the primary database, second for the standby database, and a third for the staging database in the Oracle Data Guard configuration.
- b) Two for both the primary and standby database, because a DB system with the database that you want to use as the standby must already exist before you enable Oracle Data Guard.
- c) One with the primary database, because a new DB system with the standby database is created and associated with the primary database when you enable Oracle Data Guard.
- d) It depends on how many standby databases you want for your primary database in the Oracle Data Guard configuration in Oracle Cloud Infrastructure.

Answer: b

Question: 3

In addition to the automatic backup of your Oracle Database associated with a database deployment, you are planning to take an on-demand backup of a database on Exadata Cloud Service.

How do you do this?

- a) Use the Create Backup button in the backup section of the Database Details page.
- b) Disable the automatic backup configuration and then take an on-demand backup.
- c) Perform a recovery operation to a specific long-term backup.
- d) First connect to the Exadata Cloud Instance as the oracle user and then take a backup.

Answer: a

Question: 4

After you have provisioned a virtual machine (VM) database (DB) system, what action can you take to meet changes in block storage requirements?

- a) Only bare metal DB systems can increase block storage at any time without impacting the system.
- b) If a vm DB system requires more block storage, increase the storage at any time without impacting the system.
- c) If a vm DB system has different requirements for block storage, increase or decrease the storage at any time without impacting the system.
- d) After you have provisioned a VM DB system, you cannot increase or decrease block storage.

Answer: b

Question: 5

Which FOUR storage options are available in Oracle Cloud Infrastructure (OCI)?

(Choose all correct answers)

- a) EBS Storage
- b) EFS Storage
- c) Local storage
- d) Block Storage
- e) File Storage
- f) Object Storage

Answer: c, d, e, f

Question: 6

What information is required to connect to the NoSQL Database Cloud Service?

- a) API signing key, admin ID, user ID
- b) tenancy ID, passphrase, handshake key
- c) signing key fingerprint, API signing key, tenancy OCID
- d) user ID, tenancy ID, component ID

Answer: c

Question: 7

Which is NOT a prerequisite for patching Grid Infrastructure or database homes when using the console?

- a) Oracle Clusterware is down on the VM cluster.
- b) All database compute nodes of the VM cluster are up and running.
- c) The required patch is available on the Control Plane server.
- d) The /uo1 directory on the database host file system has at least 15 GB of free space for the execution of Patching processes.

Answer: a

Question: 8

You enable automatic backups on your Exadata Cloud@Customer.?

- a) database control files
- b) server parameter file (SP file)
- c) Transparent Data Encryption (TDE) keystore (wallet)
- d) database archivelog files

Answer: c

Question: 9

You want to permanently delete the DB System and its attached HeatWave cluster. Which action should you perform?

- a) Terminate the DB system and drop the associated HeatWave Cluster.
- b) Drop the DB system and terminate the associated HeatWave Cluster.
- c) Delete the Heatwave Cluster and it will also delete the DB system.
- d) Delete the DB system and it will also delete the attached HeatWave Cluster.

Answer: d

Question: 10

What THREE steps must you perform to connect to a MySQL database in the database system by using SSH and MySQL Shell?

- a) Connect to the MySQL Database Service instance.
- b) Instantiate MySQL Shell on the MySQL database system instance.
- c) Start MySQL Shell on the compute instance.
- d) SSH into the compute instance from your local machine.
- e) Add an ingress rule for port 20.

Answer: a, c, d

Avail the Study Guide to Pass Oracle 1Z0-1093-22 Cloud Database Services Professional Exam:

- Find out about the 1Z0-1093-22 syllabus topics. Visiting the official site offers an idea about the exam structure and other important study resources. Going through the syllabus topics help to plan the exam in an organized manner.
- Once you are done exploring the [1Z0-1093-22 syllabus](#), it is time to plan for studying and covering the syllabus topics from the core. Chalk out the best plan for yourself to cover each part of the syllabus in a hassle-free manner.
- A study schedule helps you to stay calm throughout your exam preparation. It should contain your materials and thoughts like study hours, number of topics for daily studying mentioned on it. The best bet to clear the exam is to follow your schedule rigorously.
- The candidate should not miss out on the scope to learn from the 1Z0-1093-22 training. Joining the Oracle provided training for 1Z0-1093-22 exam helps a candidate to strengthen his practical knowledge base from the certification.
- Learning about the probable questions and gaining knowledge regarding the exam structure helps a lot. Go through the [1Z0-1093-22 sample questions](#) and boost your knowledge
- Make yourself a pro through online practicing the syllabus topics. 1Z0-1093-22 practice tests would guide you on your strengths and weaknesses regarding the syllabus topics. Through rigorous practicing, you can improve

the weaker sections too. Learn well about time management during exam and become confident gradually with practice tests.

Career Benefits:

Passing the 1Z0-1093-22 exam, helps a candidate to prosper highly in his career. Having the certification on the resume adds to the candidate's benefit and helps to get the best opportunities.

Here Is the Trusted Practice Test for the 1Z0-1093-22 Certification

DBExam.com is here with all the necessary details regarding the 1Z0-1093-22 exam. We provide authentic practice tests for the 1Z0-1093-22 exam. What do you gain from these practice tests? You get to experience the real exam-like questions made by industry experts and get a scope to improve your performance in the actual exam. Rely on DBExam.com for rigorous, unlimited two-month attempts on the [1Z0-1093-22 practice tests](#), and gradually build your confidence. Rigorous practice made many aspirants successful and made their journey easy towards grabbing the Oracle Cloud Database Services 2022 Certified Professional.
