ISACA IMPLEMENTING THE NIST CYBERSECURITY FRAMEWORK USING COBIT 2019

ISACA Implementing the NIST Cybersecurity Framework Using COBIT 2019 Certification Questions & Answers

Exam Summary – Syllabus –Questions

IMPLEMENTING THE NIST CYBERSECURITY FRAMEWORK USING COBIT 2019
ISACA Certified Implementing the NIST Cybersecurity Framework Using COBIT 2019
50 Questions Exam – 65% Cut Score – Duration of 90 minutes

Table of Contents:

Know Your Implementing the NIST Cybersecurity Framework Using COBIT 2019 Certification Well:

The Implementing the NIST Cybersecurity Framework Using COBIT 2019 is best suitable for candidates who want to gain knowledge in the ISACA IT Governance. Before you start your Implementing the NIST Cybersecurity Framework Using COBIT 2019 preparation you may struggle to get all the crucial Implementing the NIST Cybersecurity Framework Using COBIT 2019 materials like Implementing the NIST Cybersecurity Framework Using COBIT 2019 syllabus, sample questions, study guide.

But don't worry the Implementing the NIST Cybersecurity Framework Using COBIT 2019 PDF is here to help you prepare in a stress free manner.
The PDF is a combination of all your queries like-
- What is in the Implementing the NIST Cybersecurity Framework Using COBIT 2019 syllabus?
- How many questions are there in the Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam?
- Which Practice test would help me to pass the Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam at the first attempt?

Passing the Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam makes you ISACA Certified Implementing the NIST Cybersecurity Framework Using COBIT 2019. Having the Implementing the NIST Cybersecurity Framework Using COBIT 2019 certification opens multiple opportunities for you. You can grab a new job, get a higher salary or simply get recognition within your current organization.

ISACA Implementing the NIST Cybersecurity Framework Using COBIT 2019 Certification Details:

Exam Name	ISACA Certified Implementing the NIST Cybersecurity Framework Using COBIT 2019
Exam Code	Implementing the NIST Cybersecurity Framework Using COBIT 2019
Exam Price	ISACA Member: US $275
Duration	90 mins
Number of Questions	50
Passing Score	65%
Books / Training	**COBIT 2019 Foundation Virtual-Instructor Led**
Schedule Exam	**Exam Registration**
Sample Questions	**ISACA Implementing the NIST Cybersecurity Framework Using COBIT 2019 Sample Questions**
Practice Exam	**ISACA Implementing the NIST Cybersecurity Framework Using COBIT 2019 Certification Practice Exam**

Implementing the NIST Cybersecurity Framework Using COBIT 2019 Syllabus:

Topic	Weights
Framework Implementation	75%
Cybersecurity Framework Structure	15%
Overview of the Cybersecurity Framework	10%

ISACA Implementing the NIST Cybersecurity Framework Using COBIT 2019 Sample Questions:

How does the NIST Cybersecurity Framework's Identify Function align with COBIT 2019's focus on stakeholder value?

    a) By ensuring all IT investments are aligned with business objectives
    b) Through the establishment of clear accountability for cybersecurity risk management
    c) By defining the roles and responsibilities for cybersecurity within the organization
    d) Through the identification and classification of information and related assets

Answer: b

When integrating the NIST Cybersecurity Framework with existing organizational processes, it is important to:

    a) Focus solely on the Protect function to ensure that assets are safeguarded.
    b) Ensure that cybersecurity measures do not hinder operational efficiency.
    c) Tailor the Framework's implementation to reflect the organization's risk profile and business needs.
    d) Adopt a standardized approach that applies uniformly across all sectors.

Answer: b, c

For the 'Recover' function, what are key considerations to ensure effective recovery from a cybersecurity incident?

    a) Integration of recovery planning into business continuity planning.
    b) Immediate replacement of all compromised systems and software.
    c) Regular backups and testing of restore procedures.
    d) Post-incident reviews to update incident response and recovery plans.

Answer: a, c, d

Question: 4

The Cybersecurity Framework's Core is composed of which of the following elements?

a) Functions, Categories, Subcategories, and Informative References
b) Policies, Procedures, Guidelines, and Standards
c) Programs, Projects, Actions, and Outcomes
d) Controls, Measures, Benchmarks, and Goals

Answer: a

Question: 5

When implementing the NIST Cybersecurity Framework, the first step an organization should take is to:

a) Purchase the latest cybersecurity tools and technologies.
b) Conduct a thorough risk assessment to identify current cybersecurity practices.
c) Implement all the recommended actions in the Framework immediately.
d) Hire a cybersecurity consultant to manage the implementation process.

Answer: b

Question: 6

What do Framework Profiles allow an organization to do?

a) Compare their current cybersecurity activities with desired outcomes.
b) Legally certify their cybersecurity practices.
c) Purchase insurance against cyber attacks.
d) Implement cybersecurity technologies directly.

Answer: a

Question: 7

In aligning with the NIST Cybersecurity Framework, COBIT 2019's DSS04 Manage Continuity would be most relevant to which Framework function?

a) Recover
b) Protect
c) Detect
d) Identify

Answer: a

Question: 8

Which category of the Cybersecurity Framework Core deals with the development and implementation of safeguards to ensure delivery of critical infrastructure services?

a) Respond
b) Detect
c) Protect
d) Identify

Answer: c

Question: 9

Which Cybersecurity Framework category best supports continuous improvement and learning within an organization, as encouraged by COBIT 2019?

a) ID.AM: Asset Management
b) PR.IP: Information Protection Processes and Procedures
c) DE.AE: Anomaly and Event Detection
d) RS.IM: Improvements

Answer: d

Question: 10

What is the purpose of documenting cybersecurity activities and outcomes in the Framework Implementation?

a) To ensure regulatory compliance.
b) To facilitate internal communication.
c) To assess cybersecurity risks.
d) To demonstrate the effectiveness of cybersecurity controls.

Answer: d

Study Guide to Crack ISACA Implementing the NIST Cybersecurity Framework Using COBIT 2019 Exam:

- Getting details of the Implementing the NIST Cybersecurity Framework Using COBIT 2019 syllabus, is the first step of a study plan. This pdf is going to be of ultimate help. Completion of the syllabus is must to pass the Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam.
- Making a schedule is vital. A structured method of preparation leads to success. A candidate must plan his schedule and follow it rigorously to attain success.
- Joining the ISACA provided training for Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam could be of much help. If there is specific training for the exam, you can discover it from the link above.
- Read from the Implementing the NIST Cybersecurity Framework Using COBIT 2019 sample questions to gain your idea about the actual exam questions. In this PDF useful sample questions are provided to make your exam preparation easy.
- Practicing on Implementing the NIST Cybersecurity Framework Using COBIT 2019 practice tests is must. Continuous practice will make you an expert in all syllabus areas

Reliable Online Practice Test for Implementing the NIST Cybersecurity Framework Using COBIT 2019 Certification

Make EduSum.com your best friend during your ISACA Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam preparation. We provide authentic practice tests for the Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam. Experts design these online practice tests, so we can offer you an exclusive experience of taking the actual Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam. We guarantee you 100% success in your first exam attempt if you continue practicing regularly. Don't bother if you don't get 100% marks in initial practice exam attempts. Just utilize the result section to know your strengths and weaknesses and prepare according to that until you get 100% with our practice tests. Our evaluation makes you confident, and you can score high in the Implementing the NIST Cybersecurity Framework Using COBIT 2019 exam.
